In our country, signatures are being collected under the Appeal of citizens to the President of the Republic of Belarus with a request to initiate the adoption of the Law on the Prohibition of Propaganda and Public Demonstration of Homosexuality and Other Sexual Perversions to Minors and introducing responsibility for these actions into the Criminal Code.

This is an action against the promotion of LGBT values among minors (LGBT is an abbreviation that arose in English to refer to lesbians (Lesbian), gays (Gay), bisexuals (Bisexual) and transgenders (Transgender)).

We cannot stay away!

Confessor of the St. Elisabeth Monastery, Archpriest Andrey Lemeshonok:

— An appeal to the President is being signed in Belarus. Do I need to sign a petition? Of course you have to. We must have our say. Whether they hear it or not, it is not up to us to decide.

LGBT is an anti-family ideology, it is a fight against the family. Destroying a family is the number one task of the devil. When the family is destroyed, then the end of the world will come.

That is why we are building the spiritual and educational center "Kovcheg", why we are working here so that people come to God, become Orthodox. Then, of course, the issue of preserving the family, life on the planet will be resolved. And if a person lives and does not have spiritual values, he has no support, there is no meaning to life at all. But there is no meaning to life, because for him there is no eternity, soul, nothing spiritual at all, there is only a body. And he perverts this body, and it becomes meaning for him. After all, the fact of the matter is that all this is done so that a person forgets about his birthright, that the Lord created him. Now, it turns out, the child himself can decide who to be - a boy or a girl, he can choose, he does not need God. This is a protest against God, this is a rebellion, this is a war with God. And people, out of cowardice, out of unwillingness to be unpopular, are silent. Do you understand? Silent!

When this is put on display, when gay parades are held, when young people are involved and poisoned by this madness, one cannot be indifferent. This is an abomination!

Another thing is when a person is sick. People suffering from this come to me for confession, they begin to repent, they pray, I explain to them what it is. And the result is good: families are created, life becomes normal, children are born.

Today, many people, even those who do not accept these perversions for themselves and their loved ones, do not agree with this phenomenon, treat it as a norm, and believe that this can take place in society. This is scary. This tolerance is also propaganda. For a long time, films about Sodomy sin, mostly Western ones, began to be created on purpose, purposefully. All this, all this sin is presented so beautifully... But it's the devil!

We must remember that there is a struggle for every soul.

You and I are not in some kind of vacuum, in some kind of fenced oasis, where everything is fine with us. We live in a world where there is so much dirt, so much sin! And you and I must fight for the purity of human souls, must be attentive all the time, be able at any moment to give the correct answer to this or that question and respond correctly to this or that situation. Therefore, of course, you need to sign the appeal.
