

Att: O.A. Adrianova, Teacher- Psychologist
Copy: Argunova Oksana Mikhailovna, Director

Issue: Regarding your email from the 2019-05-02

Dear Ms. Adrianova

Reading your email was an unpleasant experience but unfortunately expected, although I was hoping you would take care of the interest of my children and put aside any excuses. Though, I am certain that a psychological survey/examination of my children Anthie' and Alexandra has been performed and completed!

Your respond clearly confirms all the worries I have for my children. Do you as a professional consider that my children are well and therefore refuses to conduct a survey/examination of my children as you claim, with an attempt to justify yourself behind some law?

Therefore, I request and demand to have answers on the following issues which arises in your email;

1. I expect to have information and material about conducted psychological survey/examination of my children performed by you when this was initiated upon my request on the 2nd of April 2019.
2. I kindly ask you to give an explanation and motivation of why the "date", your "signature" and the "seal" of the Kindergarten in your response is missing!
3. I kindly ask you to give an explanation and motivation to your late and unjustified refusal and why you respond after 30 days if you did not carry out any survey/examination. By law, the response time is 15 days (I imagine in case of denial of any action no more than 15 days are required)!
4. I kindly ask you and demand to have copy of all the reports/results of previous surveys/examinations of my children performed and conducted by you in the year of 2018.
5. Is your refusal to conduct a survey/examination of my daughters Anthie' and Alexandra Cheropoulou based on your professional expertise? If so, how do you know in advance that my daughters are well when you claim that you have not done any examination? How do you justify your refusal? Because I know that my daughters are not well, especially Anthie'!!

With this said I am expecting to have an answer within 15 days from the day you will receive this email with raised issues. And by the way, I am not only a citizen, I am the father of Anthie' and Alexandra Cheropoulou and I hope you understand the difference.

I would like to remind you that in the recent past you have not refused to conduct a report about my children, and as you know, you have a duty to act in the interests of my children and of any children.

I am also informing you and the management of the Kindergarten, that I reserve myself for any further legal actions.

Respectfully,
Nicolas Cheropoulos
